National Oak Wilt Symposium 2007

June 4th – 7th, 2007 • Downtown Hilton • Austin, Texas

Mixer and Registration (Monday evening, June 4th)

Professional Meeting (Tuesday, June 5th and Thursday, June 7th) - Includes nonconcurrent sessions, discussions, Texas-style social event.

Field Tours (Wednesday, June 6th) – Option of two field tours: 1) Tour of urban sites to view oak wilt impact and treatments, Treaty Oak, Capitol Grounds and Lady Bird Johnson Wildflower Center. 2) Tour of rural site to view oak wilt impact and treatments in endangered species habitat on Fort Hood.

Conference Goals

- Facilitate communication among the nation's stakeholders who have a vested interest in oak wilt ;
- Provide a venue for sharing information about prevention, early detection, control & management, restoration, and research on oak wilt; and
- Raise public awareness of the problems posed by oak wilt in the nation.

Conference Features:

- 250+ attendees
- Multiple sessions with 15 or more speakers
- Trade exhibits
- Texas-style social event
- A full day of tours with the option to focus on either rural or urban aspects of the fungus

Attendees include:

- Commercial arborists from management and consulting firms both large and small...
- Land management specialists from local, state, and federal agencies, including municipal, regional, state and federal parks...
- Environmental organizations such as The Nature Conservancy, Native Plant Society, Audubon, Land Conservancies, Land Trusts, etc...
- Researchers and students from state university systems and private colleges...
- Companies servicing research and control projects including equipment manufacturers, fungicide producers and other private vendors...
